MEMORANDUM FOR: Director, Central Intelligence Agency

SUBJECT: Seal for the Central Intelligence Agency

STAT

1. [REDACTED] of your Office has informally contacted this Office for the preparation of a proposed design for the seal for the Central Intelligence Agency, as provided in Public Law 110, 20 June 1949, 81st Congress.

2. The design for the seal is required to have the approval of the President. The description and interpretation of the seal should be submitted through the Bureau of the Budget to the President. The inclosed suggested transmittal correspondence, painting and black and white drawing have been prepared for your approbation. In the preparation of this design, particular attention was directed in its preparation to produce a composition that would be suitable for great reduction into the form of a matrix seal and printing reproduction.

3. If this design is satisfactory, it is requested that this Office be advised of its approval in order that the tracing may be signed after the final approval of the President.
